OFFICE OF THE SECRETARY OF STATE

The major divisions within the Secretary of State's office are: Administrative Rules, Business Services, Elections, Fiscal and Facilities, Information Technology, Records Services, Securities, and State Library.

The Administrative Rules Division publishes proposed rules and emergency rules in the Missouri Register. An agency may file an emergency rule if the agency finds an immediate danger to the public health, safety or welfare requiring emergency action or if the emergency rule is necessary to preserve a compelling governmental interest that requires an early effective date. The Division also publishes final rules monthly in the Code of State Regulations.

The Business Services Division has three sections: Commissions, Corporations and Uniform Commercial Code. The Secretary of State commissions notaries public, a process which is overseen by the commissions section. The Commissions section certifies notaries for foreign documents, elected officials, and the State Registrar of Vital Statistics. The unit authenticates official acts of the Governor and maintains bonds and oaths of office for state officials. The Secretary of State is responsible for the registration of all Missouri and out-of-state business entities doing business in Missouri. These entities include for profit and nonprofit corporations, and specialized business. The Secretary of State's office is the centralized office for the perfecting of personal property liens and other creditor interests under the Uniform Commercial Code (UCC). The Business Services Division also registers trademarks and service marks and keeps a registry of all marks. The division oversees the *Safe at Home* address confidentiality program that helps protect survivors of domestic violence, rape, sexual assault, or stalking through the use of a designated address.

The Elections Division oversees all statewide elections, for both candidates and issues, which are run at the local level by Missouri's 116 local election officials (county clerks or election boards). Missouri has more than four million registered voters, and in the 2010 November general election, 1.9 million voters went to the polls. Candidates for the six constitutional state offices, U.S. Congress, the General Assembly, and circuit judges not covered by the non-partisan court plan, file for election with the Secretary of State. The Secretary of State also certifies statewide ballot measures that are proposed by the General Assembly or through the initiative petition process. It is the responsibility of the office to canvass, certify and publish election results.

The Fiscal and Facilities Division provides fiscal, budget, procurement, facilities management support, and general office services to the Office of Secretary of State.

The Information Technology Service Division is responsible for developing, maintaining, and monitoring the information systems within the Office of the Secretary of State to ensure information is functional, accessible, and secured for use by the Office of the Secretary of State, other state departments, counties and the general public.

The Records Services Division has three sections: Missouri State Archives, Local Records, and Records Management. It is responsible for managing both current and historical records of the state to ensure those records are accessible to Missouri citizens. It is also responsible for assisting local governments in records preservation and management. The Records Services Division, in conjunction with the Missouri State Library, oversees the *Missouri Digital Heritage Initiative*, a statewide program to expand historical information accessible on the Internet.

The Securities Division is responsible for protecting Missouri investors from fraud and for ensuring that firms and individuals that sell securities comply with the securities laws in the state. The division enforces the Missouri Securities Act of 2003. The division is organized into three sections: investor education, enforcement, and registration. The Securities Division also oversees the Missouri Investor Protection Center, which creates and promotes investor education initiatives designed to educate and assist both current and future investors.

Responsibilities of the Missouri State Library are to provide library and reference services to Missouri state government; provide library services to the blind and physically disabled; and promote the development and improvement of library services for citizens throughout the state. The Library Development section supports libraries through consulting, administration of grant programs, continuing education and statewide programs to improve the quality of library service for all Missouri citizens. The Reference Services section delivers library services, including access to research databases, to meet the needs of state government. Wolfner Library for the Blind and Physically Handicapped serves as the public library for Missourians unable to use standard print because of a visual or physical disability.

PROGRAM DESCRIPTION

Department: Secretary of State

Program Name: Administrative Services

Program is found in the following core budget(s): Operating Core

7b. Provide an efficiency measure.

The process of ordering and distributing office supplies was recently centralized in the storeroom. This has not only saved money, but has made it much more efficient for the divisions. Also, four employees located in the field were assigned fleet vehicles that previously were being reimbursed at the standard mileage rate or renting a vehicle. This increased the use of these cars, while decreasing mileage paid to these employees.

7c. Provide the number of clients/individuals served, if applicable.

The Administrative Services Division not only provides support to all the staff of the SOS, they also provide support to all grant recipients, such as the local libraries and local election authorities.

7d. Provide a customer satisfaction measure, if available.

Average invoice turn-around time is 14 days or less from date of invoice to payment, depending upon whether federal funds are involved and a drawdown is required before payment may issue. The mail is delivered on time, the storeroom is stocked to address agency-wide needs, and the fleet is safely maintained and scheduled.

Among its holdings are land records from Missouri's colonial, territorial, and early statehood periods; the Missouri State Constitutions; the Journals of the Missouri House and Senate; Supreme Court of Missouri case files; State Appeals Court case files; Circuit and Probate Court case files; and records for Missouri counties. As the home of the state's permanently valuable records, the Missouri State Archives identifies, collects, preserves, and makes available to government officials, historians, students, family historians, and other researchers the permanent and historically significant records of Missouri.

Records Management: The Records Management program directs the efficient and effective management of the official records of state government agencies by establishing standards, procedures, and techniques for the management of records; developing schedules for the retention of records of continuing value and the prompt and orderly destruction of records no longer possessing sufficient value to warrant their future retention; and operating the State Records Center to provide secure cost-effective storage of paper records during their retention, and efficient destruction when the retention period has expired. The program evaluates the cost efficiency of microfilm and electronic records technologies and provides imaging, microfilming and microfilm storage services to state agencies.

Local Records: Through consultations, inventories, records processing projects and a competitive grant program, Local Records works with public officials to preserve the permanent and historically significant records of their offices. These local records are vital to the citizens of Missouri, documenting everything from marriages and property ownership to education and government expenditures. In addition, the program provides professional guidance on managing current records; everything from proper housing and storage of records to final disposition through the implementation of Local Records generated retention schedules.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

The Administrative Rules Division is required by statute, Chapter 536 RSMo, to accept rule filings, edit the filings, and then publish them in the *Missouri Register* and the *Code of State Regulations* for the 191 state agencies that promulgate rules. Rules or regulations have the force and effect of law and serve to implement and interpret the laws passed by the General Assembly and signed by the Governor. The Division publishes rule material six times per month which includes two (2) paper and two (2) Internet publications of the *Missouri Register* and one (1) paper and one (1) Internet publication of the *Code of State Regulations*. The Administrative Rules Division has implemented several features on the SOS homepage to assist in rulemaking such as: allowing state agencies to download current rules as word documents for use in amending current rules; providing fillable rulemaking forms on-line; permitting agencies to email electronic copies of proposed rule text changes to SOS; and providing a timeline calculator to assist agencies in calculating key dates for rulemaking. This Division routinely answers questions from agencies and the public regarding filing rules and has published and maintains an updated rule manual containing uniform standards and procedures for use in making rule filings, *Rulemaking 1-2-3*. Division staff also assist agencies and the public in researching prior versions of a rule to accurately represent its history in legal proceedings. Additionally, the Administrative Rule Division offers classes to agencies in how to prepare and make rule filings.

2. CORE DESCRIPTION

The Missouri Constitution and Section 116.260 RSMo require the Office of the Secretary of State to publish in local newspapers the full text of each statewide ballot measure to be voted on at an election. The expenditure of this requirement is dependent upon how many measures are placed on the ballot by initiative petition or by a joint resolution passed by the General Assembly and an "E" appropriation is necessary.

2. CORE DESCRIPTION

This program provides federal funds to states to improve the administration of elections. This includes updating voting equipment, improving access of the elections process to those with disabilities, updating a statewide voter registration database with access by all local election authorities, and creating voter education and poll worker training programs. Federal funds have been received through guidelines of the US Elections Assistance Commission and interest has accrued. The core amount requested has been reduced due to declining federal funds. A transfer from the Special Elections Subsidy Fund is made annually that provides for Federally required matching and maintenance of effort requirements and supports the Help America Vote Act activities.

4. DESCRIBE THE DETAILED ASSUMPTIONS USED TO DERIVE THE SPECIFIC REQUESTED AMOUNT. (How did you determine that the requested number of FTE were appropriate? 2. CORE DESCRIPTION

The Missouri Historical Records Advisory Board (MHRAB) promotes and supports identification of, preservation of, and access to all historical records in Missouri. The MHRAB is the central advisory body for strategic planning within the historical records community and for projects relating to historic records developed and carried out within the state of Missouri. The MHRAB provides state-level appraisal of grant proposals submitted to the National Historical Publications and Records Commission (NHPRC) by Missouri repositories and serves as the review and award panel for grant applications submitted to the Local Records Preservation Program. Board members are appointed by the Governor, with the advice and consent of the Senate; and administrative responsibilities are handled by the Secretary of State who is the Board's coordinator. Federal regulations require members to have experience and interest in the collection, administration, and use of historical records, and a dedication to the preservation and access of the state's documentary heritage. Over the years, archivists, curators, family historians, legislators, librarians, and records managers have served on the MHRAB.

An "E" is to accomodate NHPRC's possible grant opportunities.

2. CORE DESCRIPTION

Local Records Grants facilitate more secure storage of, and faster access to, records produced by local government entities/political subdivisions with taxing authority to meet the information needs of public officials, private citizens, and general public interest. Public records security and access insures the preservation of public information of permanent intrinsic or historic value, and facilitates information access as required by state statutes, for both the record provider and the information seeker. Grant funds are available by means of dedicated user fees collected by county recorders of deeds. This fund provides financial resources beyond those of the awarded local entity to effectively maintain, manage, and preserve public records through sound records management policies and practices, archival preservation of long-term or historically significant records, as well as appropriate storage and access supplies.

7a. Provide an effectiveness measure.

During FY08 and FY09, funds from the Document Preservation Fund were spent making death certificates more accessible online. The effectiveness of this expenditure can be seen in the decline in physical death certificate requests from 15,455 in 2006 to 2,210 in 2010. The online death certificate project was completed in March of 2008 with online searches growing to 18,860,896 hits in FY12.

7b. Provide an efficiency measure.

See 7c.

7c. Provide the number of clients/individuals served, if applicable.

In FY 12 an average of 9,163 visitors a day accessed the Missouri State Archives website.

7d. Provide a customer satisfaction measure, if available.

In FY12 Missouri Digital Heritage was named by "Family Tree Magazine" as one of the '101 Best Websites' for the tenth year in a row.

PROGRAM DESCRIPTION

Department Secretary of State
Program Name Records Services/Archives
Program is found in the following core budget(s): Missouri State Archives - St. Louis Center

1. What does this program do?

The facility would provide more complete and effective service for St. Louis City government offices and citizen researchers. Document storage in a records center is much less expensive than in finished office space. Thousands of dollars would be saved and thousands of square feet of scarce space would be reclaimed in government offices. The facility would draw thousands of cultural tourists from across the United States -- principally family historians, but also academics and journalists. The creation of a St. Louis Center would allow records holders to concentrate more fully on pressing contemporary business without having the diversion of genealogical and other historical searches.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Statutory authorization RSMo 109.400 and 109.410.

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

2. CORE DESCRIPTION

Under the Missouri Constitution and state statutes, the General Assembly appropriates funds to support public libraries. State aid is appropriated to libraries that have a minimum voted tax or local government support equal to ten cents per \$100 of assessed valuation. Libraries use these funds to improve information access and develop stronger library services for Missouri citizens. Funds are distributed to public libraries on a per capita basis and to libraries in less affluent counties for equalization aid as determined by RSMo 181.060.

PROGRAM DESCRIPTION

Department - Secretary of State

Program Name: State Aid for Public Libraries

Program is found in the following core budget(s): State Aid for Public Libraries

1. What does this program do?

State Aid for Public Libraries makes a vital contribution to improving public library services in Missouri. The program provides funds to public libraries that meet the requirements specified in the Missouri Constitution, Article IX, Section 10 and in RSMo 181.060. Public libraries having a minimum voted tax of local government support equal to ten cents per \$100 of assessed valuation are eligible to receive funds from this program.

Public libraries in Missouri are funded primarily through property taxes. Due to reassessment and rollback, those taxes are limited to small growth factors. Across the state, the level of library funding from taxation varies widely, in large part due to differences in local property valuations. State aid helps bridge some of the resulting funding gaps. State aid applications are submitted annually for review and certification by the State Librarian. Once the funding is approved, local library boards of trustees decide the allocation of these funds according to the highest local needs and priorities.

The economic and social success of Missourians depends on equal information access and the ability to use information. Missouri public libraries play a critical role in providing access to information. Without state aid funding, Missourians will have reduced access to information, or a reduction in the basic services offered by public libraries. In many communities, public libraries provide the only no cost high speed internet access, heavily used by people seeking jobs, filling out application forms, or researching business opportunities. State aid secures the necessary funding for the following variety of needs: computer technology, Internet connectivity, reference services, personnel and collection expenditures.

The Secretary of State and the State Library provide service guidelines through the Missouri Public Library Standards. These Standards provide benchmarks for per capita income, hours of service, amount of funds to be budgeted for library collections, as well as guidelines for developing technology, determining current and future community technology needs, and meeting national standards for cataloging library materials. Many libraries in Missouri currently struggle to meet the Missouri Public Library Standards. State aid funding provides modest support for libraries moving to meet the benchmarks of the Missouri Public Library Standards.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

RSMo Ch.181.060; Mo Constitution, Article X, Section 10

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

PROGRAM DESCRIPTION

Department: Secretary of State

Program Name: Library Services

Program is found in the following core budget(s): REAL Program

1. What does this program do?

The REAL Program provides Internet access, training, technical support, and peripheral items for public libraries, as well as licensing of shared electronic reference resources available to public libraries, K-12 schools, higher education, and state agencies.

Public libraries serve as the sole source of high speed Internet access for many Missourians. In order for Missourians to compete in an online environment for jobs and business revenue, they need a basic level of knowledge of computer and Internet resources. Public libraries provide urban and rural low-to-moderate income families the only widely available internet access and electronic resources used to gain the knowledge required to compete in an ever-increasingly online economy. As schools increase the use of electronic resources in their curricula, public libraries often provide the only means for students to complete research when school closes and when they have no computer or Internet access at home.

The REAL Program appropriation includes funding for several types of database services including a general periodicals database, K-12 education support, and resources for health, business, and other popular research topics. These services are heavily used by all types of libraries, and are also available to state agencies. Without this program, most public libraries and schools would not be able to afford access to electronic information resources. Those that are able to afford access would individually pay a considerably higher per capita cost for these resources, thus wasting scarce taxpayer dollars. For example, one such statewide product license fee was \$583,910 in FY12. If every K-12 school, public library, and higher education institution acquired its own individual license, the total cost to taxpayers would have exceed \$10 million.

The Missouri Research and Education Network (MOREnet) maintains a high-capacity, high speed statewide telecommunications network in the State of Missouri. The Remote Electronic Access for Libraries (REAL) Program is one of the contractual programs for MOREnet.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Mo. Constitution, Article X, Section 10
RSMo Ch. 181

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No

7a. Provide an effectiveness measure.

Electronic Resource Usage

The electronic resources provided by the REAL Program provide important reference information to residents throughout the state. Not only are these services heavily used by public libraries and the people they serve, these resources are essential to public school and higher education libraries and classrooms, and the students they serve. Without these shared resources, most public libraries and schools will not be able to afford access to electronic information resources, and the few able to afford to pay for individual access would pay more in total.

7b. Provide an efficiency measure.

Demand Growth and Cost Efficiency: Capacity and Cost per Mb

The demand for Internet connectivity at public libraries continues to grow. Additional workstations and greater use of electronic resources and communications by library patrons and staff continue to push capacity demand higher.

By leveraging collective purchasing power, per Mb costs are lower than if each library district were to negotiate individually. In addition, the continual pursuit of additional connectivity savings has allowed REAL to meet the continuing demand for additional capacity with existing resources.

PROGRAM DESCRIPTION

Department: Secretary of State

Program Name: Library Services

Program is found in the following core budget(s): Federal Aid for Public Libraries

1. What does this program do?

The purpose of the Library Services and Technology Act Fund (LSTA) is to stimulate excellence and promote access to learning and information resources in all types of libraries and for individuals of all ages, including targeted populations. The Missouri State Library is the State Library Administrative Agency for LSTA funds awarded annually to Missouri. Based on needs identified by Missouri libraries and a formal evaluation of the 2008-2012 State Five Year Plan, approved by the Institute for Museum and Library Services (IMLS), the federal agency which administers the LSTA funds, the Missouri State Library developed a Five Year Plan for 2013-2017. As required, the Plan was approved by the Institute for Museum and Library Services.

To implement the 2013-2017 Five Year Plan, the Missouri State Library developed programs to :

1. Build and sustain information resources
2. Target library and information services
3. Strengthen the library workforce

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Library Services and Technology Act; Public Law 104-208 as amended.

3. Are there federal matching requirements? If yes, please explain.

Yes, states must provide a 34% match in general revenue funding. Funds appropriated for the Remote Electronic Access for Libraries Program provide the match. States are also required to maintain their level of effort of expenditures for libraries purposes, as calculated over a 3-year average.

4. Is this a federally mandated program? If yes, please explain.

All states receive funds under The Museum and Library Services Act of 2003. Funds are calculated by formula under the law and reserved to the states.

PROGRAM DESCRIPTION

Department: Secretary of State

Program Name: Library Services

Program is found in the following core budget(s): Federal Aid for Public Libraries

5. Provide actual expenditures for the prior three fiscal years and planned expenditures for the current fiscal year.

6. What are the sources of the "Other " funds?

7a. Provide an effectiveness measure.

All grant applications require detailed evaluation plans. For FY12, 140 of 155 grant applications were awarded LSTA funding. This indicates most libraries submitting applications were able to follow grant guidelines and propose projects that met requirements for appropriate use of funds in their communities. Grantees are required to report impact of their individual projects, and describe how services are improved through acquisition of up-to-date technology, or programs to reach populations with difficulty using libraries due to transportation or other barriers. The LSTA 2008-2012 evaluation showed 72% of public libraries consider LSTA-funded opportunities as Very Important or Critical in being able to serve clients well.

7b. Provide an efficiency measure.

New project managers and others needing to be updated on grant guidelines participated in training sessions to increase their understanding of requirements for grant management. Libraries participating in training exhibit better compliance with reporting deadlines and providing information needed to document grant activity. Survey results from the LSTA FY2008-2012 evaluation show that staff feel well supported in the application process, with 84% rating the guidance provided as very good or excellent.

7c. Provide the number of clients/individuals served, if applicable.

Number of library staff participating in continuing education activities

7d. Provide a customer satisfaction measure, if available.

Library staff give consistently high ratings to training provided, whether in person or online.

Surveys results from the LSTA FY2008-2012 evaluation show that CE training events are perceived by most participants as being an effective tool for increasing understanding of new library practices and procedures. Furthermore, most participants report sharing information with other staff and applying what they have learned to programming and services.

PROGRAM DESCRIPTION

Department: Secretary of State, Library Services

Program Name: Library Networking Fund

Program is found in the following core budget(s): Library Networking Fund

1. What does this program do?

This program provides funds to Missouri public libraries for books, audio, video, and other information materials to meet citizens' needs for learning and authoritative information. In fields where information changes rapidly, such as health, sciences, business, and consumer information, new items must be purchased regularly to avoid incorrect and sometimes harmful information. Families need interesting, well-written, attractive materials to develop children's interest in reading and learning, whether or not they can afford to purchase them. Reading aloud to young children has been found to be a major factor in later reading achievement. Students and adults find accurate, reliable information in their local libraries. Information in rapidly changing fields such as health and consumer information is accessed to make informed decisions, search for jobs, plan career changes, and inform themselves as citizens. In accordance with 143.183 RSMo, ten percent of the annual estimate of taxes generated from the nonresident entertainer and professional athlete income tax is to be allocated and transferred to the Library Networking Fund for distribution to public libraries. In addition, gifts, contributions and bequests from federal, private, or other sources may also be deposited to the Library Networking Fund and used according to the purpose of the gift. Interest accrued to the Library Networking Fund may also be spent for the purposes of the fund.

2. What is the authorization for this program, i.e., federal or state statute, etc.? (Include the federal program number, if applicable.)

Sections 143.183 RSMo (professional athletes and entertainers income tax), 182.812 RSMo (Library Networking Fund) and 181.021 RSMo (State Library)

3. Are there federal matching requirements? If yes, please explain.

No

4. Is this a federally mandated program? If yes, please explain.

No
